7. Comments (optional)

It is clear that the complaint has been sent to the Respondent at the address given by him on the Nominet Register. There is no indication from the track and trace information that it has been delivered. However, this appears to be because the address given by the Respondent is inaccurate and incomplete. The Respondent is therefore responsible if he is unaware that the complaint has been made and it is therefore not unconscionable to proceed to a summary decision. This is particularly so because there is no possible legitimate use of the disputed domains in the Respondent's hands.

8. Decision

I grant the Complainant's application for a summary decision. In accordance with paragraph 5f of the Procedure, the domain name will therefore be transferred to the Complainant.
