(5) Each Contracting Party agrees that its designated airlines shall be required to observe the aviation security provisions referred to in paragraph (4) above required by the other Contracting Party for entry into the territory of that other Contracting Party. ARTICLE 10

Safety

(1) Each Contracting Party may request consultations at any time concerning safety standards in any area relating to aircrews, aircraft or their operation adopted by the other Contracting Party. Such consultations shall take place within 30 days of that request.

(2) Each Contracting Party shall comply with the minimum applicable International Civil Aviation Organisation standards. If one Contracting Party finds that the other Contracting Party does not effectively maintain and administer safety standards in any such area that are at least equal to the minimum standards established at that time pursuant to the Chicago Convention, the first Contracting Party shall notify the other Contracting Party of those findings and the steps considered necessary to conform with those minimum standards, and the other Contracting Party shall take appropriate corrective action. Failure by the other Contracting Party to take appropriate action within 15 days or such longer period as may be agreed shall be grounds for the application of Article 5(1) of this Agreement (revocation or suspension of operating authorisation).

(3) Notwithstanding the obligations mentioned in Article 33 of the Chicago Convention it is agreed that any aircraft operated by or, under a lease arrangement, on behalf of the airline or airlines of one Contracting Party on services to or from the territory of the other Contracting Party may, while within the territory of the other Contracting Party, be made the subject of an examination by the authorised representatives of the other Contracting Party, on board and around the aircraft to check both the validity of the aircraft documents and those of its crew and the apparent condition of the aircraft and its equipment (in this Article called “ramp inspection”), provided this does not lead to unreasonable delay.

(4) If any such ramp inspection or series of ramp inspections gives rise to:

- (a) serious concerns that an aircraft or the operation of an aircraft does not comply with the minimum standards established at that time pursuant to the Chicago Convention; or
- (b) serious concerns that there is a lack of effective maintenance and administration of safety standards established at that time pursuant to the Chicago Convention;

the Contracting Party carrying out the inspection shall, for the purposes of Article 33 of the Chicago Convention, be free to conclude that the requirements under which the certificate or licences in respect of that aircraft or in respect of the crew of that aircraft had been issued or rendered valid or that the requirements under which that aircraft is operated are not equal to or above the minimum standards established pursuant to the Chicago Convention.

(5) In the event that access for the purpose of undertaking a ramp inspection of an aircraft operated by the airline or airlines of one Contracting Party in accordance with paragraph (3) of this Article is denied by a representative of that airline or airlines, the other Contracting Party shall be free to infer that serious concerns of the type referred to in paragraph (4) of this Article arise and draw the conclusions referred in that paragraph.

(6) Each Contracting Party reserves the right to suspend or vary the operating authorisation of an airline or airlines of the other Contracting Party immediately in the event the first Contracting Party concludes, whether as a result of a ramp inspection, a series of ramp inspections, a denial of access for ramp inspection, consultation or otherwise, that immediate action is essential to the safety of an airline operation.

(7) Any action by one Contracting Party in accordance with paragraphs (2) or (6) of this Article shall be discontinued once the basis for the taking of that action ceases to exist.

ARTICLE 11

Ground handling

Subject to the laws and regulations of each Contracting Party including, in the case of the United Kingdom, European Community law, each designated airline shall have in the territory of the other Contracting Party the right to perform its own ground handling (“self-handling”) or the option to select among competing suppliers that provide ground handling services in whole or in part. Where such laws and regulations limit or preclude self-handling and where there is no effective competition between suppliers that provide ground handling services, each designated airline shall be treated on a non-discriminatory basis as regards their access to self-handling and ground handling services provided by a supplier or suppliers.

ARTICLE 12

Regulatory Control

Where the United Kingdom of Great Britain and Northern Ireland has designated an airline whose regulatory control is exercised and maintained by another EC Member State, the rights of the other Contracting Party under Article 10 shall apply equally in respect of the adoption, exercise or maintenance of safety standards by that other EC Member State and in respect of the operating authorisation of that airline.

ARTICLE 13

Transfer of Earnings

(1) Each designated airline may on demand convert and remit local revenues in excess of sums locally disbursed to the country of its choice. Prompt conversion and remittance shall be permitted without restrictions at the rate of exchange applicable to current transactions which is in effect at the time such revenues are presented for conversion and remittance, and shall not be subject to any charges except those normally made by banks for carrying out such conversion and remittance.

(2) Each designated airline has the rights of free transfer at the official rate of exchange of the excess of receipts over expenditure earned by the airline of the territory of the other Contracting Party in connection with the carriage of passengers, mail and cargo and other travel related services.

ARTICLE 14

- (ii) use the service and personnel of any other organisation, company or airline operating in the territory of the other Contracting Party;
- (iii) establish offices in the territory of the other Contracting Party;
- (iv) engage in the sale and marketing of air transportation in the territory of the other Contracting Party, either directly or through agents or other intermediaries appointed by the airline. The airline may sell, and any person shall be free to purchase, such transportation in local currency or in any freely convertible other currency.

ARTICLE 15

Intermodal transport

The airlines of each Contracting Party shall be permitted to employ, in connection with air transport, any intermodal transport to or from any points in the territories of the Contracting Parties or third countries. Airlines may elect to perform their own intermodal transport or to provide it through arrangements, including code share, with other carriers. Such intermodal services may be offered as a through service and at a single price for the air and intermodal transport combined, provided that passengers and shippers are informed as to the providers of the transport involved.

ARTICLE 16

User Charges

- (1) User charges shall be made in accordance with the rates and tariffs established by each Contracting Party.

(2) The designated airline(s) of one Contracting Party shall not pay higher fees than those imposed on the designated airline(s) of the other Contracting Party and/or on any other foreign airlines operating similar international services, for the use of installations and services of the other Contracting Party.

ARTICLE 17

Consultation

Either Contracting Party may at any time request consultations on the implementation, interpretation, application or amendment of this Agreement or compliance with this Agreement. Such consultations, which may be between aeronautical authorities, shall begin within a period of 60 days from the date the other Contracting Party receives a written request, unless otherwise agreed by the Contracting Parties.

ARTICLE 18

Settlement of Disputes

(1) If any dispute arises between the Contracting Parties relating to the interpretation or application of this Agreement, the Contracting Parties shall in the first place try to settle it by negotiation.

(2) If the Contracting Parties fail to reach a settlement of the dispute by negotiation, it may be referred by them to such person or body as they may agree on or, at the request of either Contracting Party, shall be submitted for decision to a tribunal of three arbitrators which shall be constituted in the following manner:

- (a) within 30 days after receipt of a request for arbitration, each Contracting Party shall appoint one arbitrator. A national of a third State, who shall act as President of the tribunal, shall be appointed as the third arbitrator by agreement between the two arbitrators, within 60 days of the appointment of the second;
- (b) if within the time limits specified above any appointment has not been made, either Contracting Party may request the President of the Council of the International Civil Aviation Organisation to make the necessary appointment within 30 days. If the President has the nationality of one of the Contracting Parties, the most senior Vice-President who does not have the nationality of one of the Contracting Parties shall be requested to make the appointment.

(3) Except as hereinafter provided in this Article or as otherwise agreed by the Contracting Parties, the tribunal shall determine the limits of its jurisdiction and establish its own procedure. At the direction of the tribunal, or at the request of

either of the Contracting Parties, a conference to determine the precise issues to be arbitrated and the specific procedures to be followed shall be held not later than 30 days after the tribunal is fully constituted.

(4) Except as otherwise agreed by the Contracting Parties or prescribed by the tribunal, each Contracting Party shall submit a memorandum within 45 days after the tribunal is fully constituted. Each Contracting Party may submit a reply within 60 days of submission of the other Contracting Party's memorandum. The tribunal shall hold a hearing at the request of either Contracting Party, or at its discretion, within 30 days after replies are due.

(5) The tribunal shall attempt to give a written decision within 30 days after completion of the hearing or, if no hearing is held, 30 days after the date both replies are submitted. The decision shall be taken by a majority vote.

(6) The Contracting Parties may submit requests for clarification of the decision within 15 days after it is received and such clarification shall be issued within 15 days of such request.

(7) The decision of the tribunal shall be binding on the Contracting Parties.

(8) Each Contracting Party shall bear the costs of the arbitrator appointed by it. The other costs of the tribunal shall be shared equally by the Contracting Parties including any expenses incurred by the President or Vice-President of the Council of the International Civil Aviation Organisation in implementing the procedures in paragraph (2)(b) of this Article.

ARTICLE 19

Amendment

Subject to the completion of any constitutional formalities, the Contracting Parties shall agree any amendments to this Agreement by an Exchange of Notes.

ARTICLE 20

Termination

Either Contracting Party may at any time give notice in writing to the other Contracting Party of its decision to terminate this Agreement. Such notice shall be simultaneously communicated to the International Civil Aviation Organisation. This Agreement shall terminate at midnight (at the place of receipt of the notice) immediately before the first anniversary of the date of receipt of the notice by the other Contracting Party, unless the notice is withdrawn by agreement before the end of this period. In the absence of acknowledgement of receipt by the other

Contracting Party, the notice shall be deemed to have been received 14 days after receipt of the notice by the International Civil Aviation Organisation.
