# IN THE SUPREME COURT OF THE ISLAND OF CEYLON 

S. C. 346 (Final) of 1954
D. C. Kegalle, No. 6,269.

Mrs. Cecily Harriet Matilda Peiris of No. 66, Campbell Place, Colombo
. . . . . . . . . . . . . . . . . . . . Plaintiff-Appellant
vs.

1. Mrs. Charlotte Mary Clara Fernando of
" Credon," 18, Castle Street, Colombo.
2. Mrs. Reinee Mary Phyllis Perera, wife of Dr. A. F. S. Perera of Colombo......... . . . . . . . . . . . . . Defendants-Respondents.

WHEREAS after the final printing of the record of the proceedings and Exhibits in S. C. Case No. 346 (Final) D. C. Kegalle Case No. 6,269 in appeal to Her Majesty's Privy Council, the DefendantsRespondents to this appeal made an application to the Honourable the Supreme Court pointing out certain omissions and errors in the Printed Record of the Proceedings and Exhibits; and to supply 20 the omissions and to rectify the errors before transmitting the Printed Record to Her Majesty's Privy Council,

AND WHEREAS the Supreme Court by order dated the 20th June, 1958, has made order directing me to see that the printed record contains the material referred to in the Documents A18 and A19 annexed to the said application, copies of which documents are hereto annexed;

AND WHEREAS it has become necessary to print an additional volume to contain the omissions and errors mentioned in the said application, I, Nila Aeneas de Silva Wijesekera, Acting Registrar of 30 the Supreme Court of the Island of Ceylon, do hereby incorporate in this volume which is being numbered Part III-
(1) A statement setting out the omissions and drawing reference to these omissions in this volume; and
(2) A statement of Corrections to be read with the Printed Record of the proceedings, Parts I and II.

Dated this 26 th day of November, 1958, at Colombo.
(Sgd.) N. A. de S. WIJESEKERA, Acting Registrar, S.C.

JULIUS \& CREASY,
Solicitors, Proctors \& Notaries Public, Colombo.

Our Ref., RM, Ct-4. 3rd May, 1958.

The Registrar, Supreme Court, Colombo.

Dear Sir,
S. C. No. 346 (Final) D. C. Kegalle No. 6,269.

We have to bring to your notice that upon a preliminary examination of the printed record we have discovered certain serious omissions and errors, which we urge, must be made good, before the record is despatched to Her Majesty in Council. These we indicate below in their order of importance. We are proceeding to examine the printed record more carefully and will report to you any further errors are found.

1. Most of the vitally important pages of document D51 have not been printed. D51, which is the account book of Uduwewela 20 Estate, is one of the most important documents in the case. The entries and pages of this document that the Respondent desired to be printed, viz.: (A) the following pages in full:-1 to $11,74,76$, 80 (together with a certificate that reference to the sale of green leaf "New Block" appear in D51 for the first time at page 80 ), 86, 98, 100, 102, 104.
(B) The items marked in red in the following pages of the copy D51 submitted by us 12 to $27,28,32,38,41,43$ to $49,51,53,55$ (together with a certification that P. D. Johannes is mentioned for the first time in D51 at page 55) 61, 63, 65, 67, 77, 79, 84, 85, 133, 30 147 , $151,152,153,160,167,169,171,173,175,177,179,181,183$, 211, 213, 215, 231, 243, 244, 252, 265, 267, 269, 271, 273, 275, 279.

The entries in D51 show that the Respondents have opened up, worked and possessed the lands in dispute. The judgment of the Supreme Court contains an examination of these entries and the error into which the learned District Judge was led by an inaccurate reading of these entries was corrected by the Supreme Court. The two passages quoted below, one from the judgment of the learned District Judge and the other from the judgment of the Supreme Court will show how vital these omitted passages are to a proper 40 adjudication of the case-Part 1, page 181, line 10 to 23 and Part 1, page 204, lines 31 to 47 .
2. D13a has not been printed. D13a is the tracing of the disputed land by reference to which Mr. W. Hermon inspected the lands in 1938. Hermon's inspection is one of the most vital items of evidence in the case. It is sufficient to refer this passage in the S. C. Judgment at page 205 , lines 34 to 40 . It may be added that this document, apart from the omission to print it, is not even mentioned in the index of exhibits.
3. The omission of the sketch which is part of Pl17 is also a serious omission. It was part of the Plaintiff's case that the lst 10 Defendant had obtained a Crown Grant for lands Al to A17 by making false representations. One of the reasons that the Supreme Court gives for rejecting this suggestion is that the sketch in Pl17 together with the rest of the document, provided a sufficient description and particulars. Please see Part 1, page 202, line 31 and page 203 line 4.
4. 'The omission of the note that appears at the end of P 117, is also serious. The point was made by the Plaintiff against the lst Defendant that the survey for the issue of the Crown Grant to lst Defendant had not been made by a Government Surveyor. The omitted note shews that it was in order for a private surveyor, approved 20 by the Surveyor-General to do the survey.
5. We are perturbed by the note against Pl60 and Pl62 in the index of the exhibits. These documents were produced by witness Montgomerie. They were before the Supreme Court during the argument. In fact Counsel made an elaborate note for the Supreme Court on the material contained in these documents. These are a ledger and a journal of the Kempitikande Group of which Utuwankande Estate forms part. The point was made by the defendant that these books, though available, were not shown to contain any reference to the lands in dispute.

The Respondent wanted for the purpose of showing that Rodale continued to be Superintendent in 1946, that Mr. Gordon who was V. A. of defendants' lands was acting Superintendent of the Kempitikande Group, and that the acreage claimed by Plaintiffs was not in their possession, the following pages of the documents P158, P159, Pl60, P161, Pl 62 printed :-

20 6. Errors in P124: The words "Total area in tea lst tablet. The Surveyor's signature is wrong.
7. Errors in D50. Names and extents in the tablet are wrong in many places.
8. Omission in P112. After the description of lands in 1 to 26 there is an important statement regarding these lands which is omitted.
9. D7 has not been printed. In the index of exhibits against this document is the note that it is identical with Y. But this document showing the name and date of survey, etc., is essential as it is 30 the plan referred to in Deeds giving title to Defendants.
10. D69 and D70. In cages 3, 5, 7, 9, 11, 13 the words " in D51 " after the word " page".
11. D85 the first portion entirely omitted.
12. D15 consisted of two plans. Only one has been printed. Even in that the letters WF are omitted on the Northern boundary of lot 27 and elsewhere. The words village boundary are omitted in lots 18, 17 and 2 and the word Heenwellegehena on Eastern boundary of lot 29 .
13. D10 the registered number is given as TZ. 11, instead of 40 TZ111.
14. D49 the Plaintiff's name is shown as C. F. C. Fernando instead of C. M. C. Fernando.
15. X1 portion marked in yellow are not shown. These are important as the Surveyor states that those portions are outside Defendants' lands.
16. D39 the date and the word "Kegalle" are omitted in the prior registration.
17. P15 the schedule to P15 does not give any registered numbers against the lands described. The copies states that the schedule is identical that of P16. Schedule P16 shows the registered numbers against each land. No reference is made to this omission.
18. In line 36 of page Honpaliya is printed instead of Yonpaliya.

We trust that you will cause these errors and omissions to be made good before the record is despatched. In the event of your deciding not to accede to our request we should be thankful you would let us 10 know immediately so that we may take the matter up before the Supreme Court for the directions under rule 11 to the Appeals (Privy Council) Ordinance (Chapter 85). In this connection we may mention that no opportunity was afforded to our clients to seek the directions of this Supreme Court under this rule since we had no intimation that it was proposed to omit any of the documents referred to from the record.

> Yours faithfully, (Sgd.) JULIUS \& CREASY.

The Registrar,
Supreme Court, Colombo.

Dear Sir,
D. C. Kegalle Case No. 6,269-Mrs. C. H. M. Peiris vs. Mrs. C. M. C. Fernando and Another-S. C. No. 346/F/1954

We thank you for the opportunity afforded to us to examine the original record for the purpose of making a careful comparison of it with the printed record. As a result of this examination we have to bring to your notice that:-
(a) there are important omissions and errors in addition to the errors and omissions already referred to in our letter to you of 3rd May, 1958 ;
(b) the list of errors and omissions referred to in our letter of 3rd May, 1958, should be amended by the deletion of items 6,7 and 8 and by the substitution for items 10 and 12 the following :-
Item 10. D69 and D70. The original document in each case contains the following sub-heading: "The pages in the following table refer to pages in D5l." In the printed record this sub-heading is omitted. Further, the figure for September, 1936, is erroneously printed as 3567. The correct figure is 5567.

Item 12. D15 consisted of two plans, one depieting all the lands of PP 3994 and the other depicting only some of the lands in PP 3994. The first is not printed and no mention of it is made in the index to the exhibits.
(b) Even in the plan that is printed the letters WF are omitted on the $W$ boundary of Lot 27 and on the $N$ and $W$ Boundaries of Lot 18 and on the E boundary of Lot 29. These letters indicating wire fence according to the index to the plan-shew that the lands depicted here were surrounded by a wire fence. The omitted plan shows that the whole corpus of Defendants' land were wire fenced.
20 This bears out Juanis' evidence on page 149 line 36 " when I went to the land it was barbwired. That barbwire is still there" and plan X of the Commissioner shows the wire fence right round the land.
(c) The word Heenwellegehena is omitted on the E boundary of the printed plan.

We list the additional errors and omissions below in their order of importance and request you to have them corrected and made good.

1. Line 25, page 126 of Part 1 of the printed copy reads: "My mother is the owner of lands in X." In the original record the 30 passage (which appears on page 184) reads: "My mother is the owner of lands in Z." This error is a very serious one. The passage erroneously printed is in the evidence of the 2nd Defendant who claimed title to lands in X but disclaimed title to lands in Z . The title to lands in $Z$ was in the lst Defendant who did not give evidence. If the error is not corrected it would appear that there was no refence to the title to lands in Z. The trial Judge has made an error in regard to the evidence of the lst Defendant on this part of the case and in view of this error the omission may be regarded as vital.
2. In the lst column of D11 the last entry in the record 40 reads: " $1943 / 1944$ to $1950-51$ TZ111," whereas in the printed copy the entry " to $1950-1951$ " is omitted. This entry is important as it shows uninterrupted possession from 1938 to 1951, specially in view of the trial Judge's statement on page 178 lines 10 to 14 of printed copy Part 1.
3. The acreage statement marked $A$ in the record is not printed. This is an important document. It was produced at the request of the learned Judge. As stated earlier the trial Judge's error in computing the acreage was corrected by the Supreme Court.
4. D84, D85, D86, D87, D88, D89, D90. Only extracts, arbitrarily chosen from these documents are printed. We insisted that these documents be printed in full. Vide your account of the meeting at your chambers on Friday, the 24.8.1956, at 2 p.m.
5. The " Appendix K Regulations relating to Sales and lease of Crown lands " marked B in the record is also not printed. Vide 10 again your account of the meeting at your chambers on 24.8.56.
6. P14. The attestation in the original document is entirely omitted in the printed copy.
7. P15 and P16. The schedule to P16 has been printed and this schedule in the original and in the copy has references to registration numbers against lands in the schedule. The schedule to P15 in the original does not contain references to registrations but in the copy a note has been printed to the effect that the schedule to P15 is the same as the schedule to P16.
8. D50. In the original plan the superimposition of lots $\mathrm{A}^{1}, 20$ $\mathrm{A}^{2}, \mathrm{~A}^{3}, \mathrm{~A}^{4}$, of plan No. 3775 is shewn in red outline and a note to this effect by the Surveyor is found on the plan. The copy does not indicate the superimposition in red outline although it contains the Surveyor's note referred to.
(b) The Surveyor's note in the original reads: "On Plan 1304 is also superimposed plans $X, Z$, shewing the lands claimed in D. C. Kegalle 6269." The copy reads: "sharing " instead of "showing".
9. D49. The name in the schedule to this deed is Aradanaela and not Arandane ela.
10. D65. The E. boundary of land 2 is Totadeniyehena and not 30 Totapolahena as indicated in the copy.
11. D72. The lands possessed by Defendants are coloured blue on this plan. The copy does not reproduce this.
12. D78. Thename of land 3, line 20 , page 342 is Disala mpadeniya whereas the record gives it as Sidalampadeniya.
13. D63A. The copy indicates that the owner of the properties of the E and W boundaries is Mr. C. M. C. Fernando instead of Mrs. C. M. C. Fernando as shown in the record.

We also wish to take this opportunity to place on record the following facts :-
(a) that documents P160 and P162 which were indicated as missing in the index of exhibits were (upon a search ordered by you at our client's instance) found by a clerk in your office. In addition copies of these documents produced by our client were also produced ;
(b) our letter RM/A/Ct. 361 of 29th September, 1956, addressed to you was seen in your file ; but the clerk could not find the statement of the pages and items which accompanied the said letter.
Please let us know as early as you can what action you intend to take on the matters referred to in this letter and in ours of 3rd May, 1958.

Yours faithfully, (Sgd.) JULIUS \& CREASY.
The Registrar,
Supreme Court, Colombo.

## STATEMENT A

## AN ACREAGE STATEMENT SHOWING DEFENDANT'S TOTAL ACREAGE EXTRACTED FROM D 51

1. 18 Acres :-

Shown in Plan Y.
2. 46 Acres :-

Shown in plan $X$ plus land to south of it all totalling 46 acres. See D 50 (portion to the South coloured dark blue).

Referred to in D5l as 3 blocks of 8, 21, 6 acres (pages 33, 39, 41, 43, 47,49 ). On page 19 is a reference to Taradeniya new block and Taradeniya 14 acre (also page 39 ).
After page 49, i.e., Aug., 1929, the 3 blocks are not referred to separately.
Referred to in D5l as follows :-
(a) 34 acres (pages $27,29,31,33,35,39,41,43,45,47,49,51,5310$ references continue up to December, 1931.
From November, 1932 (page 129) this is called the New block (pages 129, 131, 145, 151, 153, 165, 167, 171, 173, 177, 179, 181, 183.

Before page 27, i.e., October, 1928, this block is referrcd to as a 29 -acre block (pages 17, 19, 21, 23) D52 explains how this became 34 -acre block.
The Yonpallie block referred to in page 17 and later is part of this block.

The seed block is also part of (pages $61,85,123,131,147,151,20$ and 167).
(b) Miyanapalawa or Aradanaela hena $2 \frac{1}{2}$ acres (See pages 17, 19, $25,27,29,43,45,47$ and 51).
(c) Dangolle block (see page 17) also called Dangolle Mukalana or Mukalana (pages 169, 171, 175). Defendants owned this from the beginning but it was partitioned in case No. 9230 in D.C. Kegalle. The extent is 6 acres-See plan D63a.
The case is referred to in D5l page 169.
(d) Kiriukkua's block 4 acres 0 roods 10 perches. Plan D32 owned as deeds D33-D39. Defendant's first deed for this is dated 30 28.8.28.

This was within defendant's land but there was a squatter Kiriukkua on it. His claims were settled in Case D.C. Kcgalle No. 9555. In page 147 of D5l is an entry " pd-Kiriukkuwa for planting in terms of D-C. 9555 . Other references see pages 167, 169, 171, 173, 175, 177, 179.
Total for this block is then .. .. .. 34
3. 8 Acres Koskolawatte:-This is the 11 acres referred to in pages 17, 19, 21, 23. D52 explains the discrepancy between 11 and 8 acres. This was neglected as D67 shows. References after it was reattended to are in

Shown in Plan
No. 1444 (D64). pages $171,173,175,-8$-acre block-supplies and vacancies " 177 , 179."

This is outside Plaintiff's claim.
4. Polwattehena 13 Acres:-Shown in plan Z, pages 243, 267, 269, "paid to claimants of polwatta lands," pages 271, 273, 275.

## APPENDIX K

## Regulations Relating to Sales and Leases of Crown lands, approved by the Secretary of State's despatch of June 5, 1926

1. No Crown land other than lands of small extent leased annually by the Revenue officers, shall be disposed of otherwise than by grant, by lease, or by settlements under the Waste Lands Ordinance. No land likely to be required for a public purpose shall be alienated.
10 2. Every grant and every lease of land shall be under the signature of the Governor and the Public Seal of the Colony, except (a) Leases of small lots leased annually, which may be signed by the Revenue Officer; and (b) Leases of road reservations, which may be signed by the Land Commissioner.
2. No grant or lease of any kind shall be made directly or indirectly to any public servant without the previous sanction of the Governor.
3. No grant or lease of land shall be made to any person against whom the Crown has any unsettled claim on account of land in his 20 occupation.
4. No grant or lease of land shall be made to any person under twenty-one years of age otherwise than through the medium of a guardian duly appointed under the law of the Colony.
5. (a) No land over 5,000 feet in elevation shall be alienated by sale outright, by lease or in any other manner, unless such land is required for residential purposes, or is patana land suitable for fuel afforestation by estates, in which cases such land may be leased for such periods and on such conditions as the Governor may from time to time order.
(b) No land having a slope of $45^{\circ}$ or more shall be alienated by sale outright, by lease, or in any other manner, unless such land forms a portion of a large block having generally a slope of under $45^{\circ}$. Such portion or portions if not contiguous to one another may be alienated at the discretion of the Government Agent, if the extent is two acres or under, and if he is satisfied that there is no risk of damage by excessive soil erosion.

If however, such portions of a large block-
(i.) exceed 2 acres in extent; or
(ii.) contain any springs; or
(iii.) are situated within two chains of a stream, they may be alienated with the large block at the discretion of the Government Agent, but only on an express condition
that they shall either be maintained in forest or be afforested to the satisfaction of the Government Agent.
If the Forest Department has recommended that no such land, or portion or portions thereof, should be alienated and the Government Agent or Assistant Government Agent disagrees with such recommendation, the alienation, conditional or otherwise, shall not take place, except after obtaining the orders of the Governor through the Land Commissioner, on the matter.
(c) Land which may not be alienated under paragraphs (a) and (b) above, and land of any elevation whatsoever which should not be 10 alienated in the opinion of a competent authority by reason of its situation on the crest or side of a hill, or at or around the source of a stream, or on the bank of and marked in the plans and maps "Not to be sold or leased " with a statement of the reason for the decision and a reference to the papers in which it was arrived at. The Government Agent shall forthwith notify such reservation to the SurveyorGeneral.
7. When any block or lot of land has been reserved as above, such block or lot shall not be brought forward for sale or lease at any future time, unless the conditions under which it was reserved have, 20 ceased to exist. The sanction of the Land Commissioner must in all cases be obtained.
8. Reservations on rivers or streams should be carefully demarcated and preserved, more especially when there is dependent paddy cultivation below. Land abutting on paddy fields in hilly country should not usually be sold or leased. Suitable reservations should be made round villages to meet the wants of the inhabitants in forest produce, grazing and so forth.
9. When land exposed for sale or lease at upset price has any standing timber or other forest produce upon it, it shall be optional 30 for the Government on its own behalf to fell or remove it, or to sell all or part of such standing timber and produce to the purchaser.
10. Government Agents and officers of the Survey Department are enjoined, when dealing with applications, to be on their guard against attempt on the part of applicants to select the best of the land in separate blocks, or to obtain allotments in such positions as to detract from the value of neighbouring unsold or unleased land, and by rendering the latter inaccessible in the future to other applicants to obtain command of the market. To prevent deterioration of Crown property, frontage to routes of communication (roads, rivers, \&c.) 40 should be evenly distributed, means of access to all lots provided by suitable road reservations, and the land blocked out as the configuration of the ground, and not as the desire of the applicant, dictates.

Isolated lots in the midst of Crown lands should not be advertised for sale or lease except under special circumstances which should be
specified by the Govermment Agent on the application form for the information of officers of the Survey Department.
11. Forests and woodland being of vital importance to the interests of the community, whether for the supply of material wants, for grazing, for assuring the water supply for maintaining the balance of bird and insect life, or for preserving the beauty of the landscape, the Surveyor-General and Government Agents are held responsible that in bringing forward lands for sale or lease due attention is paid to these important considerations.
10 12. No Crown land other than lands of small extent leased annually by the Revenue Officers, and such other lands regarding which special instructions shall have been given by Government, shall be sold or leased until it has been demarcated by land marks by the Survey Department.

## Applications to Purchase or Lease

13. Every application to acquire land by purchase or lease must be made in writing in the form prescribed or to a similar effect. * An application need not be tendered in person, but must be signed by the applicant or applicants in full, or by his or their agent. Marks must 20 be witnessed. A deposit, calculated at the rate of Rs. 3 per acre or portion of an acre, shall be made by the applicant with the Government Agent.

The deposit will not be returned until the land is finally sold or leased, or where occupation is allowed before the purchase amount. or the rent becomes payable, until payment has been made of the full purchase amount or of the full premium, if any, and the rent for one year.

Provided, however, that if the Government fix the upset price of the land in the case of sale or lease at a higher rate per acre than 30 the minimum upset price per acre in accordance with regulation 22 below, or order the land for any reason to be reserved, or if the survey is not commenced within a period of one year after the receipt of the deposit, the deposit shall be returned to the depositor on his application.
14. The Government Agent by whom an application is received shall see that it is duly numbered (the numbers being in consecutive order, commencing each year at No. 1) that the acknowledgment of its receipt is filled in and signed, and that the particulars required have been duly supplied.
40 The Government Agent shall, on receipt of the deposit required in regulation 13 above, cause the application to be reported on by the Chief Headman, and, if necessary, by the Forest Officer and by the Divisional Irrigation Engineer, in accordance with General Orders

[^0]691 and 699. The report of the Forest Officer must contain the particulars set out in Schedule A.

If the land applied for has already been surveyed by Government, and landmarked, and no fresh survey of it is necessary, the Government Agent shall in due course proceed to advertise it for sale or lease in manner hereinafter prescribed, if he sees no objection thereto.
15. Neither the lodging of an application nor the incurring of expenses shall give the applicant any claim to the purchase or lease of the land applied for, and no right shall accrue to him until he shall have paid the whole price and all charges in respect of the sale or lease. 10
16. A register of applications shall be kept by the Government Agent, in which all the requisite particulars shall be entered when an application is received.
17. The Applicant shall, if possible, definitely point out on the Government Agent's office map the position of the land applied for, and the Government Agent, when exhibiting the map, shall invariably draw the applicant's attention to the cardinal points. The applicant shall also initial all alterations or erasures made in the application.
18. A sketch based on the Government Agent's map shall whenever possible, be furnished by the Government Agent.
19. The Government Agent, after receipt of the Chief Headman's report, and the Forest Officer's report (where it is required by GO 691) and after making such investigations as he may consider necessary into any claim disclosed in the Chief Headman's report, or otherwise brought to his notice by the claimant, shall decide whether the application shall be forwarded to the Surveyor-General or not.
20. Every application approved of by the Government Agent, shall, when the Government Agent has satisfied himself that all requisite particulars are entered in it, including the sketch referred to in regulation 18 above, and that the applicant has made the deposit 30 required by regulation 13, be forwarded to the Surveyor-General, together with the Chief Headman's Report, Forest Officer's and Director of Irrigation's report, if any.

Applications for the survey of land situated in areas which have been closed in accordance with the survey closure system shall, however, be retained in the hands of the Government Agent until the area is re-opened (vide G. O. 693 (111.).
21. The land (if not already surveyed and demarcated) shall then be surveyed and demarcated at the earliest possible date, and a plan, with all particulars and descriptions necessary for insertion 40 in the grant or lease, shall be furnished by the Surveyor-General to the Government Agent.

## Sales and Leases

22. (a) Subject to the provisions for special sales hereinafter mentioned, lands shall be sold outright by public auction at an upset
price which shall not be less than Rs. 20 per acre (including the consolidated fees for survey, \&e.) except where the Land Commissioner is satisfied that the average value of the land is less than Rs. 20 an acre, owing to the presence of rock, swamp, or some other cause, provided, moreover, that the Government Agent may, at his discretion, reduce the minimum upset price of land to Rs. 16 an acre (including the consolidated fees for survey, \&c.) in the case of any land in outlying or undeveloped distriets.
(b) The lease of lands shall also be sold by public auction, subject 10 to the provisions for special lease hereinafter mentioncd, at such upset premium as may be fixed by the Government Agent in pursuance of general or special instructions issued from time to time by the Governor. In the absence of any such instructions the upset premium shall be 6 per centum of the appraised value of the land, the premium value at which the land may be appraised being governed by the provisions of sub-sections (a) above (vide GO 716A).
23. The Government Agents will make arrangements for bringing forward for sale or lease suitable blocks of land, which have been surveyed and demarcated, in such district or districts as the Govern: 20 ment Agents may deem expedient.

In the case of any block of land or lands exceeding 50 acres in extent action should be taken as indicated in General Order 725.
24. Sales of land and of leases of land will be held from time to time at such place and on such date as the Government may by notification in the Government Gazette appoint.

The advertisement of sales must appear in the Government Gazette at least six weeks before sale, except in the case of advertisements of sales of lands or of leases of lands over 250 acres in extent, which must appear at least three months before sale.

Care should be taken to prevent the days of important sales in the several Provinces from clashing with each other.
25. Lands for sale or lease shall be advertised in the Gazette, and advertisements may be inserted by the Surveyor-General in the local, Indian, or other papers, under such limitations as the Government may from time to time appoint. The names of applicants for land over 50 acres in extent shall not be inserted in the advertisement.
26. (a) On the day and hour fixed by notice for the sale or sale of the lease of the land the proceedings are to be commenced by the Government Agent causing to be read aloud the articles and conditions 40 of sale or lease. In holding the sale the presiding officer shall have full discretion to depart from the order in which the lots appear in the advertisements of sale or sale of lease, if such a course appears to him to be desirable.
(b) No land shall be put up for sale or lease at a lower price than the advertised upset price, nor on any condition other than those
advertised. Provided that, in the case of settlements of occupied land and of preferential sales under regulation No. 37, the Government Agent or other officer holding the sale may, at his discretion, put the land up for sale at an upset price of not less than two-thirds of the advertised upset price. (Correction slip No. 406 of 3.11.1933).
27. Reasonable time is to be allowed for persons to make bids, and the Government Agent is to abstain from any attempt to induce offers or to stimulate the sale of any lot, otherwise than by replying to questions put with such information as can be afforded as to the position, extent, charactor, \&c., of the land.
28. When the bidding for each lot has ceased, the lot, name and address of every purchaser, together with the price bid, are to be audibly declared by the Government Agent, when, if no question arises, all the names in full and the addresses are to be legibly entered in the sale list, and every purchaser or his agent shall be required to sign the conditions of sale and declare if the purchaser or any copurchaser is a minor. Should he be unable to write, his marks to be witnesses by some person present. Where no bid is made, the words "No bid" should be noted opposite the particulars of the lots in the sale list.
29. Except in cases of purchases by instalments hereinafter provided for 10 per cent of the purchase amount of the sale or of the lease premium shall be paid on the day of sale; and should such payment not be made after the Government Agent has made a formal demand, the lot is to be again offered to competition in the same manner as in the original instance, except that the bid of the person so refusing to make such payment shall not be accepted for the lot in question. The balance of the purchase money shall be paid within one month from the day of sale and in default of such payment the sale shall be considered void, the 10 per cent and the preliminary 30 deposit made by the purchaser if any shall be forfeited, and the Government shall be at liberty to re-sell the land or the lease of the land in the same manner as in the original instance. At such re-sale no bid shall be accepted from, or on behalf of, the person who has failed to pay the balance of the purchase money in the manner hereinbefore required.
30. On payment of the 10 per cent of the purchase amount as prescribed in the preceding rule the Government Agent shall give a receipt, and at the same time explain to the purchaser that the balance of the purchase amount must be paid within one month from 40 the day of sale, and that if this is not done the ten percent and the preliminary deposit made by him, if any, already paid will be forfeited to the Crown and the sale will be void and of no effect.
31. On the receipt of the purchase money in full the purchaser shall be entitled to be put in possession of the land. Provided that in the case of a lease the purchaser shall first sign a memorandum
or an entry in a register embodying or referring to the conditions of the lease. Every lessee so signing shall be entitled as soon as practicable, pending the execution of a formal lease, to a certificate describing the land leased and summarizing or referring to the conditions of the lease.
32. The Government Agent will in accordance with the standing instructions on the subject, apply to the Land Commissioner for a grant or lease, to which a title plan or lease plan prepared by the Surveyor-General shall be annexed. The grants will be made out in
10 triplicate, and leases in quadruplicate. The original grant or lease prepared as prescribed in regulation 2 will be delivered to the purchaser, the duplicate, with plan, will be lodged in the office of the Registrar of Lands, and the third copy, without plan, will be filed at the Office of the Land Commissioner. In the cases of leases the fourth copy, with plan, will be filed at the Kachcheri.

Provided that if at any time after the sale or lease of the said land, and before the issue of a grant or lease therefor, it appears to the Government Agent that the putting up of the said land for sale or lease was due to some mistake or oversight, but for which the same 20 would not have been offered or put up for sale, or that there is pressing need for the retention of the said land by the Crown, the Government Agent may declare the said sale to be cancelled, and thereupon the purchaser shall be entitled to a refund of any deposit made by him, but to no compensation or other relief whatsoever.
33. As inconvenience may arise from the imperfect manner in which the names of purchasers are sometimes given and spelt, particular attention is to be given to this matter by questioning the purchasers as to their exact names, and having them legibly written down in full in the sale list.
$30^{-.}$34. In the event of a purchase by a firm, all the names in full, and the addresses of each member of such firm, together with the style of the firm are to be stated.

In the event of a purchase by a corporation, the full name of the corporation, together with its registered address, and whether it was registered under the English or Ceylon Joint Stock Companies Ordinance or under any special Act of Corporation is to be stated.

## Preferential Sales

35. When in the opinion of the Government Agent a block of land not exceeding either 50 acres or such area as the Land Com40 missioner may in special cases prescribe is surrounded or almost entirely surrounded by the cultivated area of land belonging to one or more estates and the configuration of the ground is such that it cannot be brought conveniently under cultivation only by such estate or estates, the Government Agent may sell such block of land to the owner of the estate at such price as the Government may fix
in each case, or if there should be more than one estate the Government Agent may put up such block to auction at such upset price as the Government may determine the bidding to be restricted to the owners of the said estates or their representatives. If any question arises as to whether any land surrounds or almost entirely surrounds such block or whether any such land is an estate within the meaning of this Regulation, the question shall be referred to the Land Commissioner. In all such cases the provisions of Regulation 29 as to payment shall apply, the "day of sale" in the case of sale to a single estate being taken as seven days from the date when the decision 10 to sell is notified by the Government Agent to the owner of the estate or to his representative.
36. In the case of applications to purchase lands which are suitable for paddy cultivation or for residing gardens, i.e.
